

MICAH's 2024 Policy Priorities: Local & State Level

1. Ensure the voice and power of people who have experienced homelessness and/or housing crises are at every decision-making table, design, implementation, evaluation of homeless programs, and housing.
2. Work with families impacted by lead paint poisoning to implement the Lead Safe Homes Bill, to protect our children from lead poisoning.
3. Racial Equity and protection of Civil Rights in all Homeless and Housing Programs and support systems.
4. Preserve and create safe, decent, accessible, affordable housing (rental & homeownership) for people with incomes under 30% median income.
5. Support livable incomes for people who are employed, unemployed, and on public assistance.
6. Ensure we are a welcoming community in creating housing opportunities that provide second chances and mercy for those who have struggled with addiction, mental and/or physical health, criminal, and/or rental issues.
7. MICAH will be actively involved with the Homes For All process in developing and implementing the 2024 Session priorities.
